Sir:

This communication is responsive to the Final Office Action dated April 2, 2003,
concerning the above-referenced patent application.

Amendments to the Specification are made by submission of a substitute page, enclosed herewith, reflecting the amendment. In this respect, the Amendment corrects the priority reference added to the Specification in the Amendment of November 3, 2003 to refer to US Patent No. 6,451,306 rather than 6,167,888. The amended text is reflected at page 2 of this document.

Amendments to the Claims are reflected in the listing of claims which begins on page 2 of this document.

Remarks/Arguments begin on page 7 of this document. Please amend the application as follows:
